A large number of people were congre-gated at the Union depot this morning awaiting the arrival at 10:33 of the Cannon-

Ball train, containing the redoubtable John

that he was asleep and could not be dis-turbed. The Chief told him who he was

and that he must see him. The Chief, fol-

lowed by several of his men, then went for-

ward to the stateroom in the front end.

There he found Sullivan, his trainer, Mul-doon, and Charley Johnson, his backer.

Muldoon and Johnson were sitting up, while Sullivan occupied a berth that ex-tended the length of the stateroom. The big fellow was apparently asleep. The Chief asked the other men their names. One

while Sullivan occupied a berth that extended the length of the stateroom. The big fellow was apparently asleep. The Chief askedithe other men their names. One of them said his name was Lynch, and the other called himself Robertson. There was no occasion to ask the name of the giant lying on the berth. Anybody would have known that he was the great and only John. Chief Clack said: "Gentlemen, I'm sorry to disturb you, but I am Chief of Police for Nashville and you must go with me."

"On what charge?" exclaimed Johnson.

"I have authority for the arrest of your party and you must go with me," answered the Chief.

By this time the cars had filled with

fighting party evidently was to palaver until the train pulled out. The Chief told

The only evidence of the conflict were his swollen hands. The Chief told his friends that they must wake him up. They de-clined to do it, and the Chief himself up drowaily, and looked as if he was wonder-ing what all the row was about. The Chief informed him of his business and asked him to go with him. He said he would not go. The Chief said that he meant business and intended to arrest him.

"Then I won't go," said Sullivan, angrily.

CHEERED BY THE CROWD.

He got up from the berth and took a seat with Johnson. The crowd outside the car then caught a glimpse of the champion through the window and began cheering vociferously. Sullivan looked ugly, and as if he intended to resist to the fullest measure of his strength. Finding that Sullivan was not going, the officers took hold of him. He arose and called on his friends. They did not obey the request, but told him that he was dealing with the Chief of Police and advised him not to hit the officers.

"No, I will not hit anybody; but I be—if I will go," exclaimed Sullivan.

Chief Clack caught him by the collar. Several other officers crowded into the room and a desperate struggle ensued. Some of the officers had their pistols drawn, and it looked like a general pistol as well as pugilistic fight was about to begin. Three or four men caught Sullivan, his friends offering him no assistance and no resistance to the officers. Sullivan gave an exhibition of his splendid strength. He jerked and pulled and tried to push the officers off.

The H. C. Frick Coke Company has purhased the property of the Connellsville Coke and Iron Company, consisting of 1,500 ovens and 10,000 acres of valuable coal lands. This makes the Frick concern the largest coke-producing company in the world, with 7,000 ovens and 25,000 acres of coal land, and a daily output of 12,000 tons of coke. Frick Coke Company, the largest in the region, has gobbled up all the interests of the Connellaville Coke and Iron Company, owned by the Leisenrings, of Philadelphia. This concern was one of the four members of the great coke syndicate that controlled the market for several years, and which was disbanded a year ago. DETAILS OF THE TRANSACTION. The property purchased consists of 10,000 scres of coal land and 1,500 ovens in the best portion of the region. It has long been coveted by the Frick company, as it adjoins their property, and next to theirs is the largest and most valuable block of coal in the Connellsville region. It has been owned principally by Mr. E. B. Leisenring. of Mauch Chunk, whose extensive anthracite interests require so much of his attention that, having received what he thought to sell. In connection with this transfer of so valuable a tract of coke property, it is said that Mr. Leisenring became disgusted with the business here on account of the actions of some of the concerns interested in the late coke syndicate, and desired to have

no further connection with them. The property purchased lies on the west side of the Youghiogheny rivor, just south of Fricks' Trotter coke works, and extends south from there about six miles through the center of the coke basin. It has three plants of coke ovens on it now, each consisting of 500 ovens. They are known as Leisenring No. 1, located at Leisenring; Leisenring No. 2, located at West Leisen-

The mammoth Frick Coke Company is now able and are producing and shipping over 12,000 tons of coke daily, requiring over 750 railroad cars cach day to transport their product. This in itself is a business much larger than many extensive railroads handle in one day. Outside of the Frick Coke Company, in the Connellsville region, the J. M. Schoonmaker Coke Company, the McClure Coke Company, W. J. Rainey and J. W. Moore & Co. are among the large operators, but their combined capacity is only about one-half the production of the Frick company.

A representative of this paper saw Mr. Frick at his office yesterday afternoon, when he admitted that the purchase had been made, but when asked for particulars as to price paid, etc., positively declined to state any, only saying that the purchase would have no effect whatever on the price of coke, as that is regulated entirely by the law of supply and demand, and that, while coke is now selling at very low prices, he hoped that the iron business would soon justify an over 12,000 tons of coke daily, requiring

Abram Demoss and City Attorney Taylor. Defendant's petition for writ of habeas corpus was read, stating that he had been arrested upon no process known to law and held without any charge against him and without shadow of legal authority.

He declared that he had committed no offense against the laws of Tennessee, and was not subject to legal restraint. He had committed no felony in this or any other State. The answer to this petition recited that Chief of Police Chack had positive information that Sullivan did commit a crime in the State of Mississippi, and that he believed this crime was a penitentiary offense under the laws of Mississippi. Counsel argued at length, and finally Judge McAlister rendered his decision.

He was very emphatic in his opinion that to hold Sullivan longer would be a most arbitrary act on the Court's part; that the officers had arrested him him without warrant or authority of law; that misdemeanors were not extraditable by the rulings of Tennessee courts and by precedents of Governor Taylor. He, therefore, ordered Sullivan released. There was an immense crowd present, and the decision of the Judge was greeted with great applause. Sullivan was made a hero of the town. When asked as to what programme they intended to follow he refused to talk. He refused to talk of Sullivan's arrest. During tneir stay at the hotel a crowd of several hundred people gathered, anxious to get a glimpse of the noted guest. The party ordered supper, but before it could be prepared Murphy had stepped out unperceived and ordered carriages at a neighboring livery stable. In about two hours from the time of their arrival a carriage drove up to the rear door of the hotel and the party were hurried into it and driven off at a high rate of speed, passing out of the city and north into Kentucky.

Kilrain and Mitchell have many friends in Shelbyville, and it is thought it is their intention to reach that place, where they will take the Big Four train to Cincinnati. ment Business at Wanamaker's Rates. INFECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, July 11 .- Postmaster General Wanamaker's reduction of Government telegraph rates from a cent a word to a mill a word made the Western Union officials in this city so indignant that they couldn't talk about it to-day. All the information that could be obtained there was that the that could be obtained there was that the matter was under negotiation. The Postal Telegraph Company were also indiguant, but they could take. They said that unless Mr. Wanamaker took it back they would take Government business free rather than bother with keeping accounts of such petty figures. Business at a cent a word did not pay for sending, they said, and at a mill a word it would be cheaper to do it free than to collect the tolls. The Postal's total income from the Government, they said, was only about \$200 a month anyway.

It is said that the Western Union's bill against the Government is over \$20,000 a against the Government is over \$20,000 a year, but even that is not a particularly serious matter, either for the Government or the company. been defeated in Pennsylvania and other States. He added:

The defeat of prohibition everywhere is a good victory for temperance. Prohibition is Phariseeism, fraud and hypocrisy. It is an attempt to bring the church and state together again. The people will not permit it. When preachers band themselves together to get the Legislature to enact laws to regulate the morals of people they are going counter to the will of God. The sale of whisky must be restricted, and the man who applies for a license must be known to be respectable and trustworthy before he is permitted to sell liquor. In truth, the liquor traffic should be in the hands of good men. It sounds paradoxical to say this, but I mean it. A man of judgment and with the right spirit, standing behind a bar, will refuse to sell to a man who is an habitual drunkard. Statutory laws do not stop the sale of whisky, and the best thing that can be done is to regulate and mitigate the evil in a legitimate way. In Maine, whisky is sold in every town. Of course prohibition works splendidly in Maine, because the people there know that they can get whisky whenever they desire it. They are content with the fraud that is going on. The law is a dead letter.

It takes two men to commit a crime. The man who drinks is not going to swear against the dispenser of drinks. You never hear of the man who gets a drink being arrested. Then, when the seller is arrested, who in the neighborhood is going to swear that he bought a drink from him. Those summoned to testify can only remember that the accused sold milk or lemonade, and so the farce of trying to carry out prohibition is ended. The men who sign my temperance pledge rarely fall to keep it. If they do backslide seven or more times I do not despair, but keep at them to reform. When the true spirit of the Lord gets hold of them they are drunkards no more.

It was time for the people of Pennsylvania to rise and assert themselves. The death knell of rise and assert themselves.

the true spirit of the Lord gets hold of them they are drunkards no more.

It was time for the people of Pennsylvania to rise and assert themselves. The death knell of prohibition is sounded. We are going forward instead of backward, and these great victories against prohibition are temperance victories. High license and restrictive measures will promote the cause of temperance, and the people are sensible enough to see it.

A FAMILY SKELETON EXPOSED. of the Secrets in Harriet Hubbs

PRPECIAL TELEGRAM TO THE DISPATCH. CHICAGO, July 11 .- Herbert C. Aver's family history became public property to-day in a petition filed in the Superior Court, which asks that Harriet Hubbard Aver be removed as guardian of the minor daughter of the two. The petition had been suppressed, so that a service could be had on Mrs. Ayer, in New York, of an order by Judge Shepard, restraining her from taking the child from Blanche Willis Howard, in Stuttgart, Germany. The petition is accompanied by letters written by Miss Howard, Margaret Ayer, and four other young girls under Miss Howard's tutorage. These letters contain vivid accounts of Mrs. Ayer's conduct during a visit to Miss Howard. The petition alludes first to the domestic unhappiness in the Ayer family. A bill for divorce was filed by Mrs. Ayer in 1886. It was not contested by Ayer. The decree which ensued gave Mrs. Aver the custody of the children until further order of the court. WASHINGTON, July 11 .- The Se of the Treasury has decided that all immigrants who come to this country under conditions similar to those of the seven English immigrants who recently arrived at New York on the Obdam, are prohibited from landing under the provisions of the alien contract labor law.

An investigation of the case in question An investigation of the case in question by the Treasury Department shows that J. W. Wrightson & Co., of London, England, have established an agency for the encouragement of immigration to the United States, and that they have agents at Rotterdam and at Sequin, Texas. Persons are induced to immigrate to this country by promise of employment, and are furnished with a circular letter to the Texas agent, whose business it is to procure them work and to care for them until he does. The immigrant is required to sign an agreement to accept the first employment offered him by the Texas agent.

Party of His Friends PRPECIAL TELEGRAM TO THE DISPATCH. CHICAGO, July 11 .- The rumors that be can to circulate concerning Senator Wash burn's financial embarrassment at the time, of the building of the "Soo" Railroad, became greatly intensified during his Senatorial campaign. The Senator was then openly charged with buying his seat, and his election is known to have cost him away up in the thousands. According to most reliable information, Mr. Washburn discovered a year ago that he was not making money. He was connected with many busi-ness interests that did not thrive, and it be-came evident that to recover from the impending disaster it was necessary to attemp a systematic dropping off of some of his vari

THE SCOTCH-IRISH CONGRESS.

Steps Taken to Insure the Continued Success of the Organization. NEW YORK, July 11 .- The Executive Council of the Scotch-Irish Congress of America, consisting of the President, Robert Bonner, of New York; the Secretary, A. . Floyd, the Treasurer, Mr. Frierson, both of Columbia, Tenn., and the Vice Presidents from the various States and Territories, met at the Gienhan House, in this city, to-day. Among the Vice Presidents present were: Colonel T. T. Wright, of Florida; Mr. A. G. Adams, of Tennessee; Dr. Harvey McDowell, of Kentucky, and Mr. William O. McDowell, of New Jersey. Measures were passed which insure the continued progress of the organization. All matters not definitely settled by the council were given in charge of an executive committee appointed by the chair. The President was added to this committee, which will meet to-morrow to arrange some important details—notably the publication of the first Scotch-Irish history, which will be principally under the control of the Secretary. The annual dues were fixed at \$2, which also entitles the applicant to a copy of the annual publication. All members of the Scotch-Irish race are eligible.
